

# Grade 1

## Communication and Collaboration **CC**

- 1 Collect and document evidence to share information with others in pictures, diagrams, or text.** 1.CC.1
- 2 Communicate the solution(s) of a problem/analysis either orally, visually or in writing, which may include process steps, findings, or conclusions.** 1.CC.2
- 3 Identify roles and responsibilities to collaborate in various group settings (i.e., online, onsite and/or hybrid) and situations.** 1.CC.3

## Data Analysis and Measurement **DM**

- 1 Estimate to determine appropriate measurement tools to use and apply measurements (e.g., time, length) defined in grade level content standards to analyze real-world scenarios.** 1.DM.1
- 2 Construct visual representations defined in grade level content standards (e.g., bar graphs, charts) to determine patterns.** 1.DM.2
- 3 Evaluate reasonableness of observations, results, and solutions throughout processes.** 1.DM.3

## Inquiry-Based Approaches and Problem Solving **IPS**

- 1 Form observations, ask questions, plan and conduct investigations to answer questions or solve problems.** 1.IPS.1
- 2 Decompose a complex problem into smaller steps or sequences to evaluate (e.g., what should be done first, second) appropriate to grade-level content.** 1.IPS.2
- 3 Determine one or more viable solutions using data and information to resolve a given scenario.** 1.IPS.3

## Applications and Modeling **AM**

- 1 Apply modeling to represent physical or conceptual objects (e.g., plants, animals, base-ten blocks).** 1.AM.1
- 2 Apply symbols and relationships (e.g., place value,  $<$ ,  $=$ ,  $>$ , operations) to represent physical or conceptual objects (e.g., letters or numbers may represent objects).** 1.AM.2
- 3 Describe that systems have parts that work together to accomplish a goal (e.g., plant life cycle, computer hardware and software).** 1.AM.3

**Information and Digital  
Literacy IDL**

- 1 Consider how technology can both serve as a tool and/or create the problem to be solved.** 1.IDL.1
- 
- 2 Review and compile information from multiple sources (with guidance) to solve a problem.** 1.IDL.2
