

Health Science: Emergency Procedures

Demonstrate proper emergency rescue and transport procedures. EP1

1 Demonstrate proper emergency rescue and transport procedures. EP1

Analyze emergency situations and determine appropriate emergency care. EP2

2 Analyze emergency situations and determine appropriate emergency care. EP2

Investigate legal and ethical issues related to emergency procedures. EP3

3 Investigate legal and ethical issues related to emergency procedures. EP3

Demonstrate correct use of PPE (Personal Protective Equipment) in relation to standard precautions for prevention or spread of disease. EP4

4 Demonstrate correct use of PPE (Personal Protective Equipment) in relation to standard precautions for prevention or spread of disease. EP4

Compose an emergency plan for the home. EP5

5 Compose an emergency plan for the home. EP5

Assess the physical and mental status of the client. EP6

6 Assess the physical and mental status of the client. EP6

Research and debate issues concerning organ donation. EP7

7 Research and debate issues concerning organ donation. EP7

Evaluate data related to the mortality rate of the local community. EP8

8 Evaluate data related to the mortality rate of the local community. EP8

Identify and locate designated emergency shelters in the community. EP9

9 Identify and locate designated emergency shelters in the community. EP9

Compare and contrast emergency procedures used in the media to reality. EP10

10 Compare and contrast emergency procedures used in the media to reality. EP10

Inspect the school and/or home for potential safety hazards. EP11

11 Inspect the school and/or home for potential safety hazards. EP11

Evaluate current health or safety issues in the community. EP12

12 Evaluate current health or safety issues in the community. EP12

Research current data available on the economic impact of life support systems. EP13

13 Research current data available on the economic impact of life support systems. EP13

Evaluate emergency services and resources available in the community. EP14

14 Evaluate emergency services and resources available in the community. EP14

Demonstrate proficiency in CPR (cardiopulmonary resuscitation), AED, and first aid techniques. EP15

15 Demonstrate proficiency in CPR (cardiopulmonary resuscitation), AED, and first aid techniques. EP15

Utilize activities of HOSA-Future Health Professionals as an integral component of EP16

a course content EP16A

b skills EP16B

c application EP16C

d leadership development EP16D

Use information technology applications

17 Use information technology applications as appropriate to health care specialties. EP17

as appropriate to health
care specialties. EP17

**Integrate literacy and
numeracy concepts and
processes across all
curricular units. EP18**

**18 Integrate literacy and numeracy concepts and processes across all curricular
units. EP18**

**Demonstrate
employability and social
skills relevant to
careers. EP19**

19 Demonstrate employability and social skills relevant to careers. EP19
